

WORLD PIPELINES®

Volume 18 Number 9 - September 2018

V-Sup

Safe, Engineered, Reliable Support System

DHATEC 

MAKE TIME STAND STILL.

Full-Surface Protection Up to One Year

HT 365™ is an anti-corrosive coating, a water displacing agent, a lubricant, and a penetrating fluid. It creates an imperceptible thin-film coating that offers excellent salt contaminant and humidity protection.

Contact your HoldTight® representative or visit Holdtight.com for more information.

Protection for these typical applications and more:

- ✓ Unpainted metal surfaces
- ✓ Equipment in storage
- ✓ Machined parts
- ✓ Marine exposed components
- ✓ Moving parts that cannot be protected with a paint, polymer, or epoxy coating
